Am enclosing a list of Nebraska Bank bills I have descriptions of.

Dear Sir:

Replying to your favour of April 15th, the only Nebraska Note in the Society's collection is a one-dollar bill of the city of Omaha, dated 1857, and this you do not mention in your list, which I am returning, herewith. You will note that I have checked the few pieces which we have here.

Thank you very much for the booklet on the Dix tokens. We had no copy of this in our library and are very glad to have received a copy from you.

Very truly yours,

Enc.

American Numismatic Society,
Howland Wood, Curator,

Dear Mr. Wood:-

Enclosed herewith you will find a carbon copy of my Check list of Banks,Bankers and Corporations, listing dates of notes in my collection, and denomination, the notes in Parenthesis are not in my collection, they are in other collections that I have noted and have descriptions of very few of them.

Am sending this copy for the use of the Society if of any value to them, so you need notreturn it.

In this list have not included the private or store or city issues of which I have a number, those will be listed as a separate list provided I have the time to do it all.

Of course I have the description of all the bills or notes that were current in I858-62. posibly not all but nearly so.

It is the earlier notes in circulation before I850 that most of those issues are not obtainable, for purposes of description.

So that if it were posible to obtain any that are likely to be inyour collection, that could be obtained to be added to the New York City list, to be published in the Numismatist, it would be very much appreciated, Thanking you for your kind consideration of the matter.

Very Truly,

D. C. Wismer

Dear Mr. Wismer:

Your list of New York Bank Notes camee to hand just before I left for the Convention in Washington and I had no chance to open them before I returned, otherwise I should certainly have spoken to you and thanked you for them when I saw you.

I have gone through your list and am enclosing, herewith, a list of those pieces which you do not specifically mention. I have nothing except different dates - with the exception of the East River Bank and the Fifty-dollar Mechanics Bank that are not in your list.

Sorry that I was unable to see more of you when in Washington.

Very truly yours,

Referring to conversation with one of your men while visiting your place in N.Y.C., I desire to procure a copy of John J. Knox's Book "History of Banking in the United States"; also Gallatin's Book about the early banking in the United States, I do not know the exact Title of the latter book; it was published about 1831.

Dear Sir:

All I can say is that we have neither of the books you ask for. Mr. Noe has put an advertisement in for the Knox book on banking. I wish you would try to find out the exact title of Gallatin's book.
